Comment

Good teachers but due to personal reasons I couldn't engage at the level needed to achieve the objectives.

I found this course really enjoyable and topical. The course was taught by able and knowledgeable lecturers. I am especially appreciative that the course was able to accommodate distance learning so easily.

2. What did you like about this course?

What did you like about this course?

Teachers were good and course interesting!

Very interesting

The lectures, the teachers and the seminars were all very interesting and well executed.

Great teachers, very knowledgeable and helpful.

I think it was good teachers Petra was very helpful and the essay was the part I enjoyed the most and learned a lot from

I found the content very interesting and interactive (though unfortunately I was unable to participate much due to my being in a different time zone)

3. What do you think could be improved in the course?

What do you think could be improved in the course?

A lot of reading material and preparations for the seminars made it hard to follow along and have the time to deeply prepare and understand things for the seminars.

The exam is too late in the year, after working on the essay we have to work on all of the courses again (maybe exchange and do the exam earlier and the essay after)

It is difficult to find time to prepare properly for 14 seminars, a big essay and the exam. The risk is that it will all be half-done

The spacing of the seminars. The final month of this course was intense.

The time given for the written exam was way to short

I do not really have any criticisms. The only difficulties I experienced regarding participation in classes was due to the unique COVID-19-related circumstances. I don't imagine future semesters will have quite the same restrictions

4. Anything else you would like to share with us?

Anything else you would like to share with us?

Very big exam for the time given. A lot of questions in each question made it hard to give a clear and good answer.

The timeframe for the essay was way to short. Even though it is made clear that English is the language of the course it's for most of the students not their first language. This makes you read questions slower and extra carefully and also takes time from exam to check spelling and so forth. Being the best lawyer cannot possibly be measured through this very stressful experience of quickly putting together answers you know you could have don better with (at least) one more hour.

I would have wanted the grade for the essay before the written exam in order to plan how to do with the written exam since i felt the time was way to short to give good answers
